### **DETAILED ACTION**

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on September 7, 2004 has been entered.
2. Claims 12-18 have been canceled.
3. New claims 22-25 have been added.

### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

4. Claims 19-20 and 23-24 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The specification is not enabling for the step of transversely cutting the packaging material. Furthermore, there is no disclosure in the drawings of transverse cutting. Any detail that is essential for a proper understanding of the disclosed invention should be shown in the drawing. MPEP § 608.02(d).

Art Unit: 3721

Therefore, it is not clear how the process step of “transversely cutting” would be performed by applicant’s invention

***Allowable Subject Matter***

5. Claims 10-11, 21, 22, and 25 are allowed.
6. Claims 19-20 and 23-24 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

### ***Responses to Arguments***

7. Applicant remarks have been fully considered but are deemed non-persuasive. Applicant contends that “cutting” is a method step, not an apparatus feature susceptible to depiction in the drawings. Applicant also contends that “cutting” is specifically taught at page 19, lines 3-5 of the specification.

In response to applicant’ arguments, Examiner asserts that the step of “transversely cutting” is not enabled neither described in the specification. Furthermore, there is no disclosure in the drawings of “transverse cutting”.

Therefore, Examiner contends that it is not clear how the process step of “transversely cutting” would be performed by applicant’s invention and that any structural detail that is essential for a proper understanding of the disclosed invention should be shown in the drawing.
